HOLIDAY *guide*

Do **NOT** place hot coals, hot firewood, burning fireworks into your carts or bins! It is a fire hazard that can ignite in your carts, bins or in our garbage trucks. To dispose of charcoal and wood ash: Let the ash cool for 48 hours. Please help us avoid a fire catastrophe by making sure these flammables are **COMPLETELY** cool before disposing.

Holiday tree collection will begin on Jan. 2, 2018, through Jan. 12, 2018. Simply cut tree/s into 4-foot lengths and place into your **GREEN** waste cart/bin—on your regular collection day. If you do not have a green waste cart/bin place inside your trash container making sure the lid closes.

Please remove lights, tinsel, ornaments, tree stands, and other decorations.

Flocked trees are accepted, but will not be recycled.

If you decide to not save your **COOKING OIL**, or if it's gone bad, it's important to dispose of it properly. Let the oil cool completely, pour the oil in an old can and put it in the freezer. Freeze or refrigerate until hardened. Throw away (trash) the oil when it's solid enough to come out of the can in one piece. Consider getting a Fat Trapper system if you do a lot of frying. This is a plastic receptacle that holds foil-lined bags. Just pour the oil into the bag, and when it's full, seal the bag and throw it in the garbage. Each bag holds 32 ounces of oil.

- Did you know Americans create 25% more
- trash during the holidays? Much of your holiday
- waste can be recycled. Mid Valley Disposal
- would like to remind you of the different
- materials that should be kept out of the trash.
- Please place the following items inside your
- **RECYCLE** cart or bin:
- Greeting Cards • Paper Products
- Gift Wrap Products • Plastic Containers
- Plastic Gift Cards • Tin Cans
- Glass (Bottles & Jars)
- Cardboard Boxes

Let's Talk COMPOST!

After years of hard work, we are excited to announce the opening of our Kerman composting system. This system utilizes in-vessel covered aerated static pile technology and is designed to handle 250 tons of food and green waste per day and will generate 4,000 tons of compost per month. Mid Valley Disposal's compost is now available for sale! All of our naturally produced products are the finest choice, made on our premises to assure you of great quality and performance. Kerman's Best Compost benefits include:

1. Mixes with existing soil to enhance plant growth
2. Helps to retain water
3. Breaks up hard clay soil
4. Slowly releases nutrients into the soil

We offer options for every job size and budget. To get a **FREE** sample & to place your order, please call us at **559.897.5217**.
